

University of Kentucky College of Agriculture, Food and Environment *Agricultural Experiment Station*

Seed Inspection Report 2020

RB-342

Agricultural Experiment Station Kentucky Tobacco Research and Development Center | Veterinary Diagnostic Laboratory | Division of Regulatory Services | Research and Education Center Robinson Forest | Robinson Center for Appalachian Resource Sustainability | University of Kentucky Superfund Research Center | Equine Programs REGULATORY SAMPLES ANALYZED is an overview of the number of regulatory samples taken, tests performed, number found to be mislabeled after laboratory analysis, and compliance rate.

REGULATORY SAMPLES ANALYZED		
OFFICIAL SAMPLES ANALYZED		1477
Purity	1051	
Noxious Weed	1102	
Germination	1470	
TOTAL NUMBER OF SAMPLES IN VIOLATION		211
TOTAL OFFICIAL TESTS PERFORMED	3623	
COMPLIANCE RATE OF OFFICIAL SAMPLES ANALYZED		85.71%

INSPECTION SUMMARY BY LABELER is the list of the number of samples taken during the year for each seed labeler. The summary provides the name of the seed labeler responsible for the guarantees of the seed lot, the number of samples obtained, the number of samples which passed within tolerance of laboratory testing, and the number of samples that were mislabeled. The mislabeled samples are further summarized under the type of violation section of the table.

Seed lots are mislabeled when they are found to be out of tolerance of the labeled guarantees. Tolerances applied are those established in the "Rules for Testing Seeds" published by the Association of Official Seed Analysts. All official Kentucky samples are tested in accordance with the methods prescribed in the "Rules for Testing Seeds" as required by Kentucky Administrative Regulation 12 KAR 1:116, under the provisions of the Kentucky Seed Law (KRS 250.021-250.111).

VIOLATION DETAIL is a listing of samples taken during the year that were found to be mislabeled after laboratory analysis. The information provided includes the name of the seedsman responsible for the guarantees of the seed lot, lot number, name of the retail location where the sample was obtained, the component which was mislabeled, the claimed label guarantee, and the value found to be present by laboratory analysis.

Some seed lots were found to be out of tolerance for the germination guarantee. The germination percentage is expressed as total viable (germination plus any hard and/or dormant seed). Agricultural seed must have a minimum total viable of 60 percent to be sold in Kentucky.

Most seed lots found to be out of tolerance with the seed analysis tag guarantee may be relabeled and offered for sale after a proper release from the stop sale order has been obtained. However, a release from a stop sale order for purposes of relabeling and offering for sale cannot be obtained for seed lots with a total germination below 60 percent for agricultural seed, seed lots that contain excess noxious or prohibited noxious weeds, and seed lots which contain in excess of two percent weed seed. These lots can be released for purposes of removal from the Kentucky marketplace.

FIELD ISSUED STOP SALE SUMMARY is a listing of seed lots found to be in violation of the Kentucky Seed Law during routine inspections of seed located in retail and wholesale locations throughout Kentucky. All seed lots included in this listing were placed under a stop sale order and removed from the sales floor at the retail location. Seed lots under a stop sale order cannot legally be offered for sale until the noted violation has been corrected and a release from the order has been obtained from the Division of Regulatory Services.

This listing details both the wholesaler name and the retailer location. Examination of the information reveals that a very large majority of the noted violations involved an offer to sell expired test date seed. The retailer is responsible for maintenance of the germination test date of the seed lot. The seed retailer is in violation of the provisions of the Kentucky Seed Law if the retailer offers for sale a seed lot with an expired germination test date.

FIELD ISSUED STOP SALE SUMMARY							
Retailer	Reason Field Written Stop Sale was Issued	Number of Violations	Wholesaler				
Kentucky American Seeds - Hopkinsville	Missing test date	1	Lewis Seed Company, Inc.
